## DEAR READER!

I know it! This issue contains about 70% amusement stuff and only about 30% reasonable stuff. I don't know about it, but it's you who are the ones to decide whether you want fun or not, so let me know. I also know that I have not kept what I promised about the Amiga section, but the editor VIKING hadn't got the time for it, and to be honest with you, this mag was ment to be a 64-mag. But once again I'll have to ask for YOUR oppinion!

**SLIDER/BUSINESS, LERGAARD 57, 6200 AABENRAA, DENMARK**

## ZOCC - ONE YEAR -

SLIDER

17/6 1988 - a day we all will remember.

Falco and Edwin started their indeed very succesfull musiccompany

20th CENTURY COMPOSERS

which I think we all are greatfull for. They have scored some big hits with their CHILDREN SONGS, MEGAMIX and many many others. Now they are one year, and we from the BUSINESS wants to express our biggest CONGRATULATIONS!

SLIDER/DOMINATORS

GROOVER/DOMINATORS

## **MAGNETIC DREAMS**

As you could read in the Ikari/Zargon-party issue of BUSINESS there is a new powerfull mag on disc now!

Yes, it's the -MAGNETIC DREAMS- (the mag of your live!)

So if you wanna order the next issue of this mag send DM 10,- (only notes) to:

**PULSAR**

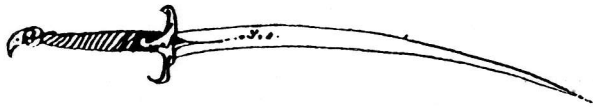

**Po. Box 25**

**A-1217 Vienna**

**Austria**

But you can also become a sub-editor of -MD-!! You can write e.g. news from your group, news from your country, about other computers (AMIGA!?! ) and so on....

NOTE: Sub-editors get their free-issue of MAGNETIC DREAMS!!

## **ANIMUS IS BORN**

Shadow (ex-CFR) has in these days founded the new AMIGA-group ANIMUS!!

It should only be a demo-group! Members are needed! (Mainly: Musicians and coders!)

Write to:

**SHADOW/ANIMUS**

**Po. Box 81**

**A-1071 Vienna**

**Austria**

## **INVASION FROM THE EAST**

It's QUALITY again who made speaking about 'em, and I think you all know 'em by now from their high-standart demos (e.g. The Cat!) I think they are the no. 1 in Hungary and also the best coders there! (Keep this, guys!)

Another fact in Hungary are those many lamers! E.g. FBI-CREW: If you swap with 'em you get always games with their intros in-front ("Imported into Hungary....") Pah! I think they are more stupid than Americans!!!!

## **SORRY FOR...**

A BIG sorry must go to all people who read the last issue of BUSINESS! The articles "Quality Hungary" & "That's Austria" where written a long time ago, and so they where not on the last standing!!!! Look in this issue for the actual articles of this!!

## **SEARCHING FOR...**

We from -MAGNETIC DREAMS- are searching for guys who wanna release their ownwritten programms (new demos, utilities, games) on -MD-! So if you wanna release your next piece of code on the -MD-, send it by the 1st of each month to:

**PULSAR**

**Po. Box 25**

**A-1217 Vienna**

**Austria**

Also if you want to paint something for us (prof. quality!) you can contact us!

NOTE: The -MD- is not the mag from PULSAR, only the guys from PULSAR are working in cooperation with the main-editors!

## **THE REAL AUSTRIA**

By now BEYOND FORCE lost their Austrian member, because he joined PULSAR! Also the COMMANDO FRONTIER have no longer Austrian members (guys say: CFR is dead!)

So the real top-crews in austria are: LAZER, PULSAR, COSMOS! Also the old TSK-CREW will come back on the C64!

I think there will come other powerfull crews too from our country, e.g. THE WILD BOYS or THE ANCIENT TEMPLE (cool demos!) and not to forget: THE VOICE (you sure know!)

But if THE VOICE they think are the best coders in Austria, they are wrong!!! Cause the best active coders in Austria are in COSMOS (HERMES and ICON!)

That must be said about Austria!!

So long....

## GOSSIP - TALK

Well mainly old news but there's something to read for you guys, so go ahead. And maybe somewhere in this mess, there's something you haven't heard yet.

You can't afford to miss it, so go on....

\***FAIRLIGHT, STARION & HORIZON** are putting out a new magazine, unfortunately it's just another of those discmags, but, let's wait and see! \*

\*t seems that **ZENITH** are not dead, anyway, they've just released a demo. I don't know about you, but I thought that they were stepped out! \*

\*Old news! But to get it sraight, **EXCELL BOY** has excused his somewhat nasty behavior at the **ZARGON/IKARI** party, and the gangster has now left the C64 for sure to make the AMIGA market unsure! \*

\***CHANNEL 42** was kicked out of **IKARI**, where they too lame? \*

\***NATO** (who?) has got a lot of new members. To name one of them: **MR. LEE** (former **7-11**) \*

\*Not only discmags are popular at the moment. There is also a new papermag to be released now!!

Producer: **DUST** (mmm) \*

\*One of my friends, **MIK** of **PULSAR** wants to quit computing! Why? No interest! \*

\***X-RAY** seems to be dead by now (pitty) \*

\*A new music company hits the scene. **BAGDER** of **HORIZON** and his brother introduces: **SKYLINE TECHNICS** \*

\***FEDERATION AGAINST ABNORMAL** is born.

Reason: **FIST** of **ABNORMAL** should have ripped a DYSP-routine from **ANDY's REVENGE/LACC..** Some of the members of **FAA: SHAPE, SHADOWS, ONEWAY, SHOCKWAY** and **RIFFS!** \*

\*Oh dear, oh dear. **MANIACS OF NOISE** has been charged for releasing the **OUTRUN**-music.

Black times for **MON!**

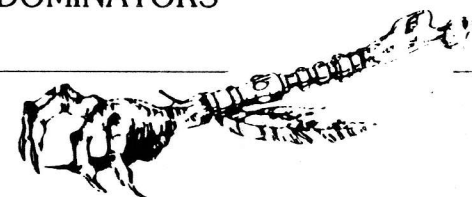

Hope they are allowed to make music in jail! \*

\***PARAMOUNT** seems to have got a lot of trouble with their memberlist. They have taken up to 25!! members in, but the boss didn't know anything about it. So probably there's still just 12 members in **PARAMOUNT!** \*

THANKS to **TONY/SHAPE** for some of the news!

## RAP's MAILBOX

Yohoo freaks!

As in most of the other cool magazines around, **BUSINESS** has now also got a MAILBOX, where you can send your letters in, containing questions, problems or whatever is in your mind. The person running this MAILBOX, will be no other than **RAP**. So go ahead, send in all your letters. Here is a letter to give you some inspiration on subjects.

**Dear RAP**

I have a great problem. Just two houses from my home, is the local police station. Many cops are runnig past my windows, and I very much enjoy shooting at them with my pumpgun. But now, me and my dad are discussing which caliber is the best for this use?

**T. Errorist**

**Dear T. Errorist**

There are two possible relations on your problem:

- 1) The best caliber, according to my opinion, is 8x57mm.
- 2) Use handgranades instead.

**RAP**

**Dear RAP**

I'm in deep trouble!

Every time I'm at a party I can't stay away from beer and other alcoholics. Drugs are also a big problem. I sniff, drink, stick and eat. I just can't stay away from it!!!

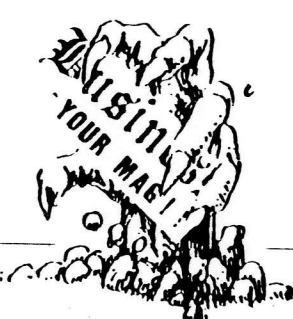

Your sincerely

**H.E Roin**

**HEY H.E Roin**

Why should you???

**RAP**

**NEWS FROM RAP**

I guess that you allready have recognized that the Darling family from Codemasters aren't quite normal. They use to send out messages to the entire worldpress if their big sister just has taken a bath. This month, I got the message that David just has increased his shoe-size from 42 to 43, and that their dad has got his first grey hair. Oh, what exciting news from the two ugly brothers..

Facts about Al Lowe, the "father" of Leisuresuit Larry.

Larry's alter ego is Al Lowe, a balled man with a smiling face. His first game was "Winnie the Pook", which was released by Activision back in 1984. His newest Larry-game, "Looking for love in several wrong places", is twice as cool as the first, containing 1.3 MB Source code, 1.5 MB Animations and 1.0 Mb music, all this on 2 AMIGA disk's.

He is already busy planning and producing his THIRD Larry-game, "Where in the heck is Leisure Suit Larry?"

Well, look out for it, and enjoy it as much as the first one.

**REAL PROGRAMMERS**

Real Programmers don't eat quiche.

They like Twinkies, Coke and palatescorching Szechwan food.

Real Programmers don't comment their code. If it was hard to write, it should be hard to understand and harder to modify.

Real Programmers don't document. Documentaion is for people who can't read listings or the object code from the dump.

Real Programmers scron Floating Point Arithmetic. The decimal point was invented for all those who are unable to "think BIG"

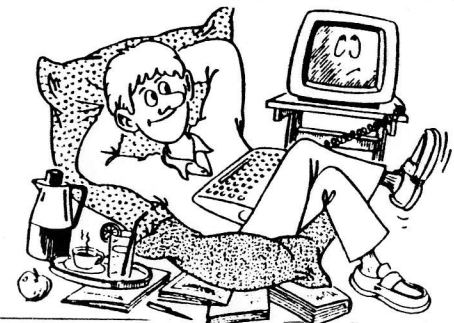

Real Programmers' programs never work right the first time. But if you throw them on the machine they can be patched into working order in "only a few" 30-hour debugging sessions.

Real Programmers don't write specs. Users should be gratefull for whatever they get; they are lucky to get any program at all.'

Real Programmers never work 9 to 5. If any real Programmers are around at 9 am, it's because they were up all night.

Real Programmers never "write" memos on paper. They "send" memos via MAIL.

Real Programmers like vending-machine popcorn. Coders pop it in microwave ovens. Real Programmers use the heat given off by the CPU. They can tell which jobs are running just by listening to the rate of popping.

Real Programmers don't play tennis, or any other sport which requires a change of clothes. Mountain climbing is OK, and Real Programmers wear climbing boots to work in case a mountain should suddenly spring up in the middle of the machine room.

Real Programmers don't like the Team Programming Concept. Unless, of course they are the Chief Programmer.

Real Programmers don't bring brown-bag lunches. If the vending machine sells it, they eat it. If the vending machine doesn't sell quiche.

## CHAOS IN FAIRLIGHT

In these days KARL XII probably isn't worth a lot. In a television-show he has bragged about how good he were and how he cheated all those big firms by using thier Visa & Mastercard to call around the world. So now, of course the firms has made an investigation, and here are the ugly results:

Visa & Mastercard are closed and can not be used anymore.

The ALCHEMIST of FAIRLIGHT has stopped his illegal activities, because he was afraid of being caught, so now Gollum has to do all the cracking and training again.

VIPER has been caught and is probably going to jail!

BACCHUS has also been caught, and he's waiting for a big bill to dump in with the post!

## DOMINATORS FOREVER

## HORIZON & EQUINOXE COPYPARTY

The party was held 12-15/5 '89 in ESKILSTUNA in Sweden and it started at 18.00 on friday. Me and 2 other guys of BEYOND FORCE took a ship from TURKU (FINLAND) to STOCKHOLM at 10.00 friday morning. The ship trip was very boring coz nothing happened.

About 20.00 we arrived in STOCKHOLM. We caught a taxi and drove to the central station. At the central station we asked when the next train would leave for ESKILSTUNA and they said that we had to wait to saturday morning coz the next train would leave at 9.30 am. Shit! We tried to find a place where we could stay all the night, we tried to sleep at the station. But they closed the place so we had to leave the station. At last we took a room at a quite cheap hotel and slept all night there. In the morning our trip continued with train, we met 2 nice guys there! They were GOBLIN AND ELRIC of LIGHT/AGILE!!! At last we arrived to ESKILSTUNA where the party place was! After driving a bit with taxi we came to the party place!

It was like a normal party: Few

cool guys and very many lamers... And it was also very hot there (and the smeel was really awfull!) I met some really cool guys there like:

GRENDEL/BYTEFUCKERS (the old party pig), STONE/AB-NORMAL, VIPER, BACCHUS, PERNOD/FAIRLIGHT and so on! I found some liquorice from my bag and then I got a very good idea! I took SOLOMON's lighter and burned the liquorice a bit so it tasted like shit!

Then me and GRENDEL went to FLT's place and saw BACCHUS who was doing something with a bit liquorice, he smiled very happily and took our liquorice! We went a few meters away coz we started to laugh at BACCHUS! We looked while he ate the liquorice. The smile dissappeared from BACCHUS' face, he turned to us and looked like a very angry beast and showed his middelfinger to us... Later on, he said that he would never see our face's again! WE offered some liquorice also to another guy, but he didn't react, anyway he said that it tasted very good! (???)

The shittiest thing at this party was that there wasn't any booz-

ing! Otherwise it was a rather nice party (if you forget the smell and lamers!) there were also very good videos! Guys from SPECTRE showed some really cool horror pictures there! Really cool! I liked that very much...

The democompetition was fair this time (not like the IKARI/ZARGON party!)

Here are the results:

1. HORIZON
2. TRIAD
3. FAIRLIGHT

(I hope that I remembered the results right!)

We released only a little demo there and it wasn't in the competition! The party stopped monday! We had a much funnier trip back than to the party! First we had a little railway station party while we were waiting for the train! There was also made a small railway station demo and again BACCHUS of FLT was unlucky! This time he got some spray serpentine on his face! (GRENDL again!) GRENDL sprayed also 3D/TRIAD in the STOCKHOLM's underground station. On the ship there wasn't much happening, coz we were sleeping all the time, except one thing!

Guys from (B) and other BE-

YOND members tried to throw me of the ship but they didn't succed! 4 guys is not enough to hold 1 HAZOR!

That was all about this party trip  
Hellos to all my friends!!

## Mr LICK's CORNER!

This is the place where no humanbeing can feel save!

I'm Mr LICK and I'll from now on have my own little corner in BUSINESS, in which I will give my oppinion of lame demos and dum mover!

This month I'll start with some talk about IKARI; who seem to have build on IMPORT-ASSOCIATION, where they do nothing but importing US-trainers and then put on some buggy HI-saver! The lame thing is that they don't even crack anymore themselves. It seems like a new norwegian No #1 has been founded! They call themselves ABNROMLA.. I saw their Mega-demo called RUMBESEEKER (very COOL!) Unfortunately they haven't got brains because some other norwegian guys called ABNORMAL made a serie of demos called SEEKER too.. So, I think there's war in sight!

Talking about ABNORMAL..

They've declared SHAPE (shitty hackers and pale eggs!) war, just because they are bored or something like that at least!

The ESKILSTUNA party in Sweden (held by VERTICAL or HORIZONTAL) must have been very boring, after all - no booze - no FUN!! Anyway, HORIZONTAL claimed that the DMO-Compo was democratid NO WAY, I hate their offer, it was lame! IKARI's contribution was better (where they there?)

I think it's time to end for this month! But I'll be back!!

Mr LICK

# ATTENTION!

We at BUSINESS really find it cool, that some guys send us articles, and please keep on doing that!

BUT if you send us something, then write legible so that we can read your articles. It's really shit to get an un-readable article. For instance we got a party-report from JUMPIE/F4CG, but we can't publish it because we can't read it!!!

So in the future remember to write LEGIBLE!!

## ATTENTION 2

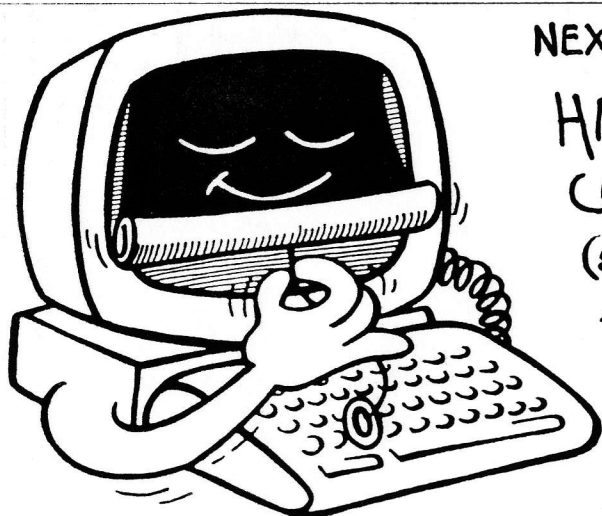

If you send articles, then please try to write correct english.

It really pisses me off to spend lots of time correcting the worst mistakes, and sometimes I have to give up, cause it's impossible to understand the meaning of what is written.

And something I hate, is reading some articles with broken english like the main text in "SMASHER" and other mags!

So please spend a little more time on your articles. OK?

# INTERVIEW WITH TRAP/DOM

B = BUSINESS

T = TRAP

B: OK, when did you get your first computer?

T: In 1986

B: And when did you start to code?

T: Two years ago

B: Let's hear about your career if you have any?

T: In 1987 I founded CCC (Commando Code Crackers, LAME) together with one of my local freinds.

We made a demo with 3 sprites moving, cool !! After a few months in CCC I contacted some other guys living near by called ICE-T, whom we joined. But after a year we had a row and I resigned to join RAZOR EXPRESS. But destiny wanted that we splitted up, and JTC (former RAZOR) founded HULKSTERS, which we kept alive until the megalame Tom merup-party, on which I met THE HIDDEN FORCES (now ABNORMAL), and after about one month I joined in then. At that time I also bought my first diskdrive (incredible, eh?). On the 8/6 I joined DOMINATORS for whom I will work hard to get on the top of the democharts!

B: What are your plans for the future?

T: To become the best, of course! Mr CURSOR, beware!

B: Well, I see. Let me hear about your favourite films?

T: Brute ones, and porno of course, yes, yes!

B: Demos?

T: My favourite demos?

My own ones. (Just kidding!)

I really love DOUBLE DENSITY by Mr CURSOR. It's great.

B: What about music?

T: Heavy metal forever! Pink Floyd is okay too.

B: I meant computermusic?

T: Matt Gray is very cool. I don't like MON 'cause their music is boring. The music from NIGHTDAWN is very cool.

B: What kind of games do you prefer?

T: Roleplaying games. BARDS TALE is fab!  
 B: What do you do for a living in DOMINATORS  
 T: I code, design, swap (I'll maybe drop swapping) and I'll probably make some cool tunes with SLIDER (hu, hu, hu, ha, ha, hehoo)  
 B: Ehheh ok, I've got enough now. Let's drop it. Do you have any comments?  
 T: Not really, only a special hi to my good freind in 2000 AD. Hi Thomas.  
 B: Ok, let's make some cool muzaks now!  
 T: Yes, yes!

## **NEWS IN SCENE!**

Beginning with my mothercountry, it is as follows: After 1 month of absolutly doing nothing, laming around, COSMOS is back with old (lame??) power!

First they wanted to take a new name, but they decided to keep the old, TWG USA has joined them, and BIG BEN was kicked out! In this time LAZER showed up with constant power their coolness and they seemed to be the only No. 1, after COSMOS's abstinece, but after they've returned, the batle for No. 1 is thougher than ever!

Under the motto "when 2 are fighting the 3rd is happy" TSK-CREW is now 100% back on 64, and they promised to bring out some crax, soon!

GERMANY: CREST joined forces with ZEB & WOT; ATOMIC was kicked out of LAZER, DUNE now worksas composer for LAZER (ex-FPS)

ITALY/BELGIUM: PIRATES is dead, NFC joined F4CG

DENMARK/AUSTRIA/GERMANY: Former WS members are very mad at the German and Austrian WS members coz they kept the name, although the danish members declared that WS is dead! OK. That's all!

THE EDGE/LAZER

## **LAME LETTER**

Till now BUSINESS was somehow incompleated. There was something missing. Namely articles for lamers. There were interviews of cool guys and reports about cyparties. But a real lamer doesn't understand a single word of all this. Otherwise he would not be a lamer. Consequently here is an article for all those who are not so famous and cool yet and want to become as well known as all those who write articles for BUSINESS. If you want to get famous it is a very important thing to have good contacts. And the best way of getting swapping contacts is to write a mega cool letter to them. So for all those who want to swap with the best use this letter. Everytime there is a blank you may chose between 3 ways of continuing. Take that answer that fits best to you.

OK! Here we gooooo.....

Hello (0)

I am (1) and (2). I got Your address from a demo which (3)! You wrote that (4) consequently (5). I have (6) therefore (7). I am quite in a hurry (8) so I'll better stop now.

Bye, bye, and reply soon,  
 (sign here!)

0) Fill in the name of the guy you write to.

- 1) a lamer  
Mr SUPERCOOL of FROGFUCKYSOFT  
gay
- 2) 10 and a half years old  
the coolest freak in TSCHBUTTI  
very lonely
- 3) was the best one I ever saw  
made me puke  
wasn't of my taste at all (nude women!)

LAME??

- 4) lamers are hearty welcomed because you need disks  
you are looking for contacts  
you are looking for real hot stuff
- 5) I send you a disc with Strip poker (cool game)  
you must be a lamer because you don't have any contacts  
I send some photos of mine
- 6) about 20 disk with superb games like Moonbuggy  
always the latest stuff because I swap with the coolest guys  
the biggest cock in our town
- 7) I think we can do a fine swap  
kiss my arse  
I think we can do a quite close swap
- 8) because it is already 7 Pm and tomorrow I have school  
you see copiing 372 disks takes a while  
because I am sick of sitting in the loo and writing this letter

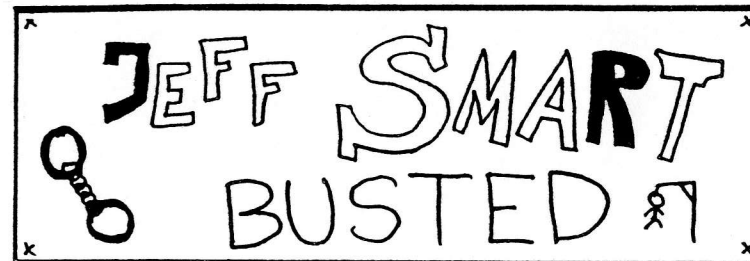

HINT: If you just started computing always use the first an  
swer  
If you have your computer already for 6 years and you  
are still a loser take the second possibility  
And if you neither are the first nor the second type of  
lamer then simply take the third one.

## NEW SERIES

Welcome to the first part of a new series of stories written by THE LAST NINJA.

This first story is called:

It's only BUSINESS.

And as far as I've got, the maincontent in this in all ways great story is LOVE. Not a daily routine in the crackerworld, but what the hell, that's what we all want, isn't it?

Well, have good pleasure dear audience.

## IT'S ONLY BUSINESS

Part one: What a mess. (A confusing introduce)

Midnight. A hard wind was blowing. Now, a person came sneaking out of the forest. The forest was just lying there black and forbidden.

- Oh my god, a young girl said to herself, - times up, Sonny's getting mad if I don't hurry. She began to run. Pitty the time ran out so quickly, Darleen and I had a wonderful time together.

The blackwearing man stepped out in front of the girl. She stopped.

- What do you want, she asked. The man just looked at her.

- What do you want, she said louder.

- Just hurt you, the man said, and grabbed her arm. She hit him and ran. The man tried to catch her, but she was too fast. His hand flew down in his pockt. A

shot, a scream, then silence. The killer felt sick. You have just killed an innocent girl, he thought by himself.

- I love you beauty, a young man called Night - Star spoke to his girlfriend, who was a lovely, beauty and intelligent girl in the age of 17.

- I love you too darling, but where were you last night. We'd appointed a date, remember?

Night - Star faltered, he had been by Sonny.

- Leane's brother, you know, he said softly. She's beginning to draw suspicions, he thought, and shook a bit.

- Oh god darling, what's wrong she asked freindly.

- I hate to see you lying. You weren't really by Sonny were you?

- No, he answered quickly, - I

were downtown with Sonny.

- It's alright, she said and kissed him.

Bam. The door was kicked up by a foot of Slider.

- Jesus Christ, Camina bursted out, - It may be okay, you're kicking doors up at home, but will you please not do it in my parents house. Lucky you, they're not at home.

- Camina, he said panting. - Sorry.

- You're upset honey, she said, - Come on let me take your jacket.

- Camina, I... he stammered.

- Don't talk sliderdarling. I don't know who's heart you have broken now, and I don't wanna know. So will you please?

- Please what?

- Please drop the rest of your clothes, she said charming.

Slider was to upset to notice, that Camina was trying to help him off his clothes.

- Goodnight sweetheart, a mother of a little boy said to her son.

- Sleep well son, his father shouted from the kitchen.

- Goodnight mum and dad Kent Rusty said and went to bed.

- Don't forget to let the computer take care of itselve son, his mother reminded him.

Heart - Breaker walked down the

street freezing. It's a long time since I've slept with a girl, he thought. Maybe I should go see Diana. But she's probably busy, don't forget it's saturday night. I think I will find Slider.

Heart - Breaker turned around a corner and he soon arrived at Slider's home. He knocked on the door. Slider's father appeared in the door entry. He looked angry, and it struck Heart - Breaker, that it was two Am.

- Sorry I woke you up, he said, - But where do I find Slider?

- He's not here, Slider's father answered, - Perhaps by Camina.

- Thank you very much oldie, Heart - Breaker said and turned around.

A light summerrain began to fall from the sky through the darkness down on the earth.

Heart - Breaker was getting wet. - Shit, he thought. I have to find a place to sleep and a nice girl.

At the same time he saw a girl, with shapely legs, run a few hundred meters away. He started to run and caught up the girl soon. She stopped surprised; who in hell was this idiot.

- Hi, Heart - Breaker said, - Haven't we met before beauty?

- I don't think so, and will you please leave me alone, she answered.

- Keep talking to me, Heart - Breaker continued, - You have a sexy voice.

The girl became angry.

- You look cute, when you're angry honey, he said, - What's your name?

- Darleen, and will you please shut up and leave me, I got no time for dirty boys like you, I'm busy, TRY TO UNDERSTAND THAT, she screamed loudly into his ear.

- Heart - Breaker's shining blue eyes became bigger. - I mean it, you are very beautiful Darleen, he said seriously.

She looked at him, like she didn't know what she should think of this young man, who was so honest and plain.

- May I follow you home sweetie, he asked.

- My name is Darleen, and I can find my home myself, she said and began to walk down the street.

- Should I go home? Heart - Breaker asked himself, - I don't think it's my night tonight.

- Hi mum. Hi dad, Jason shouted, when he came home.

- Be quiet son, Kent Rusty is sleeping, his mother said.

- Oh, I should have thought of that, he said.

- Well I'm going to bed. Goodnight.

Sunday morning.

- Oh Marilyn, thank god you're home, Darleen said in the phone, - It's terrible... wait, I'm coming over.

Ten minutes later Darleen stood in front of Marilyn's parent's house. She knocked on the door.

- Hi Darleen, Marilyn said, - Have you ever read "Knock On Any Door". I think you should, now.... She suddenly stopped talking. - What's wrong, she said.

- Marilyn. Leane has been shot, Darleen said.

- Leane? Oh no. That's Sonny's littlesister, isn't it, Marilyn asked.

- Right. It's just terrible. Darleen started to cry.

- But who has done such a bloody crime, Marilyn asked.

- I don't know Marilyn, and I will never do anything wrong any longer. Listen; Night - Star was with me friday night, Darleen said.

- And he didn't tell me, Marilyn shouted and snatched the phone.

- I'll call and ask her Camina to be with you, untill I'm back again. I have to see Night - Star.

Quick she called Camina and ran to Night - Star.

- Hi, Camina said when she arrived at Marilyn's home, - You must be Darleen?

- Yes, I am; hello Camina.

- It's horrible, what's happened to Leane, Camina said.

- Truely. Camina, do you know someone who's called Heart - Breaker, Darleen asked.

- Oh yes, he's a freind of Slider, Camina answered.

- Who is Slider, Darleen asked.

- He's my boyfreind, Camina said,

- He was very upset last night.

- He was?

- Yes

When Marilyn knocked on Night - Star's frontdoor, a pair of eyes watched her from the bushes. Heart - Breaker was confused, his luck with girls was falling. Maybe I should take a girl and keep her, he thought, but no one wants me anymore. If I want a girl, I have to be fast and be there, the minute she's breaking up; or he's brea...

- Hello, is Night - Star at home, Marilyn asked cuty, when Night - Star's young mother had opened the door. Heart - Breaker listened carefully.

- Yes my darling, Night - Star's mother answered with a smile, - Please come inside. I think he's

expecting you.

- Really, Marilyn said not as cute as before, and a small hope began to grow in Heart - Breaker's fast beating heart.

- Oh, hi Marilyn, Night - Star said and shined like a star in the night. Marilyn saw it and thought that he would stop soon. She said:

- You were lying to me last night. You weren't downtown with Sonny. YOU WERE IN DARLEEN's BED!

Night - Star was paralysed in two minutes.

- Who has told you, he asked codly.

- Darleen told me, cause good freinds never have secrets. I thought you were my freind Night - Star.

- I am, and I love you, Night - Star said softly - I'll kill that Darleen.

- So, you also killed Leane? Marilyn asked.

- Leane? Leane's killed? Sonny's littlesister killed? I haven't done that, believe me Marilyn schatz.

- Why should I believe you, Marilyn snarled, but I know you never could kill anyone, even if you yourself was going is going to be killed. She turned around.

- Marilyn wait, Night-Star said - Let me explain, it was Darleen, she asked me home herself. If

you have to get angry at somebody, it must be her,  
 - And you absolutely had to follow her, Marilyn said, now badly hurt.  
 - Marylin, you know. I. You know how, Night-Star stammered. - Marylin wait, let me explain to you. I...  
 - YOUR NAME SHOULD HAVE BEEN NIGHT-ORC, she cried and slammed the door behind her.  
 - Here Darleen, look at this, Camina said.  
 - What?  
 - Here in the paper, listen: A young girl was on her way home when an unidentified person came and shot her. A witness saw what happened and will help as much as she can in this case. The young girl died on the hospital this morning.  
 .. Darleen started to cry. - Let's go to the hospital.  
 - Hey doc, how is it going with my sister, Sonny had waited since the hospital called him. (His parents were not at home)  
 The young doctor looked tired. Her brown hair was in disorder, and her eyes were wet.

## **COMMODORE SHOW, SUMMER '89**

Can you believe it, it was over half a year ago that the last commie show was on. It seems like only yesterday!

Upon arrival at the show. I had to wait for about 15 minutes in the queue! (Next time, I think I'll get the ruddy tickets in advance!) Inside the show looks pretty ordinary and familiar, we were given a show guide and an Amiga mag before entering. The first thing I did was look around the place for the Compunet stand! After trudging around for 30 minutes, I gave up and consulted my guide which told me the fucking thing wasn't even there! Feeling a bit pissed off, I went into the arcade games area but I couldn't stay there for long coz somebody stank like shit! Haven't they heard of under-arm sprays? I had my doubts! I left the place and walked around looking for crackers and guys from other groups. In the end, I met two guys from PULSAR; MIK and JOG. (I think!) We had a chat and JOG gave me a disk to load in. Then there was a slight misunderstanding coz I found myself asking for his address when I wasn't supposed to!! This caused chaos and I think they were slightly

scared coz they thought I was an ex-member of FAST (Federation against software theft!) However, we managed to solve the problem and I hope they have some thrust in me! By the way, I just wanna thank them for the disc but I'm not too sure about the stuff on it!!!

Upstairs was all for Amigas and the music system that was set up was incredible! I loved it. It looked and sounded very impressive! Various companies were selling stuff like there was no tomorrow! Games were thrown away at ridiculously low prices and so were blank discs! Last time I bought 100 discs, it cost me £28.00 but this time, they were selling for £16.00!

Another funny bit during the day was when I was messing around on the Commodore sound sampler. We sampled all sorts of things including bad language which drove the owner up the wall! It was a pity I didn't bring any demos or music from us (SONIX SYSTEM (plug plug)) Maybe I'll bring some on Sunday.

Well, that's about all what happened today, Friday 2nd June, the first day of the commie show. I will go again Sunday and this

time I'm out to shock the world with my demo JUICY... Bye!

SUNDAY 4th June (last day of the commie show)

Today I'm here with my partner in SONIX SYSTEMS, Marc. Not long after we arrived, we met TCM of COSINE (Marc's pal) and he stayed with us all day.

Luckily, today, I've brought a few very good demos including the legendary GALLERY which I coded a while back. We were at the CCI stand most of the time loading in stuff and attracting people's attention with loud digis and swinging logos! I thought 100 disks for £16.00 was good value but TCM bought 100 for £10.00! That's talking the frigging piss as far as I'm concerned! At about 11.30, we went to the programmers' seminar where various games coders were answering questions from the public. I have to admit, some of the questions were pathetically naff like why don't they make a special joystick so you can play with 4 players like the Gauntlet arcade machine? If I was answering, I'd tell the guy to fuck off! Anyway, we were sitting there trying to think of questions that would really fuck them up! We thought of things like FLD and

DYSP and all that bullshit but I guess they've never heard of them! In the end I asked one of the guys how Tony Crowther managed 32 colours in his game (I knew already - of couse!) and he said that it was advisable not to use it coz it flickers! Well, if only I had a 64, I could have proved the silly wanker wrong on the spot!

We left and met the biggest lamer of all time, this guy from our school! To my shock and horror (and anything else mother nature cared to throw at me!) he'd bought an Amiga! What a bastard! I think he's wasting his money coz he's so ignorant, he can't tell the difference between a joystick port and a girl's pussy! He thinks he can just shove his stick in there and wank away till he's nacked! In the afternoon, we spent our time at the CCI stand loading in stuff. I gave the guys there a copy of GALLERY and they were pretty happy! However, they wouldn't let me load in JUICY coz they reckon it's a bit to rude! At one stage, we were about to load it in and leave but we thought otherwise! I had a chat with this guy from PARAGO - not the one we know - but a new group from England; they are all on the Amiga. By the looks of them, I

doubt if they can do anything other than wank their dicks in the midi port! As Gallery was loading in, some guys (small little toddlers to precise!) approached us and introduced themselves! I would like to mention their name but that would be degrading myself coz they are that lame! They remind me of the time when I started on the commie! Being a typical masacistic dickhead, TCM decided to swap with one of them! But when you think about it, you have to start somewhere! Luckily I had good freinds and cool contact (like SLLIDER/DOM for example!)

On the whole, today was better than Friday, although there were less people. It has cetainly been fun to look down on people. It's also been fun writing this article and my thanx must go to SLIDER. I hope I will get another opportunity to write in this mag and I hope you've enjoyed reading it. Just before I leave, I'd like to remind you that the greatest show on earth, the PCV show is on in September and I urge you to go. Be there or be dead!

Can I also say that if you're a contact of mine and I haven't sent you any shit for God knows how long, please write to me so I'll know who I'm still swapping

with. If I don't get a letter, I will assume that you've decided to dump me (I can't blame you!) Thanx yo'l and see you next time! Bye Bye from
